

Envision : The photography society

Life is all about seeing this world with a better vision and capturing the same is what Envision does!

Started in the academic year 2012-13 , ENVISION -The Photography Society of SBSC offers a platform to learn and help learn. It aims to provide a creative environment to bring together a community of diverse photographers and enthusiastic artists with a unique vision and respect for their art.

Whether it is photowalks ,phototalks , workshops , exhibitions , competitions ; the society is well known for its activeness through-out the university. Being the only photography society that could make it to the top-5 of the Delhi college awards under the category 'visual arts' envision is growing each day.

With all the hard work , we hope our members posses that child like ebullience that would help them see things as opportunities to mischief and not like challenges to overcome.

Be childlike and discover the fun with ENVISION!
